

# STATION

« STATION: a design inspired by station clocks. »

## SOBER AND TIMELESS DESIGN

The hour and minute hands, black and rectangular, as well as the minute markers on the dial, combined with a red seconds hand, are the elements of this design that is inspired by the usual look of station clocks. Classic and modern at the same time. The quartz clock mechanism is integrated in a robust case with a stainless steel contour. Delivered with its battery.

## SMART CLOCK

### Radio-controlled technology

STATION has got a 30 cm of diameter. The big Arabic numerals are easily readable wherever you are in the room. A protective glass avoids dust and yellowing due to sun exposure. Fitted with second hand.

## ERGONOMIC

### Silent movement

Thanks to its silent system, the STATION's second hand makes no noise, creating a setting conducive to concentration and well-being.

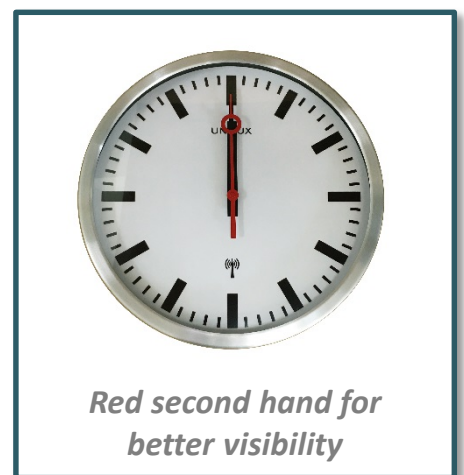

## TECHNICAL FEATURE

### Materials

Outline : Steel

Cover: glass
