

Reusable Cutlery

Simple and exclusive design with a “sandy” surface, which makes it extra comfortable to hold. Part of the Grey-Line range, which also includes a coffee cup and a bowl.

GREY-LINE

Saves the environment for 69% CO₂-eq emissions after only ten times of usages compared to regular disposable PS cutlery.*

ABENA GASTRO REUSABLE RANGE

- Great alternative to disposable and traditional tableware such as glass, porcelain and metal
- Dishwasher safe – tested and passed 125 washing cycles according to EN 12875-1:2005
- Reusable – same functionality as traditional tableware
- 100% recyclable PP – can easily be recycled to new products
- Unbreakable – unlike traditional tableware such as glass and porcelain
- Lighter than glass and porcelain – no heavy lifting
- Inexpensive alternative to glass, porcelain and metal
- Less CO₂ emissions compared to regular plastic disposables

Item no	Description	Length	Color	Pcs./pack	Pack/carton
1999903100	Knife	18,7 cm	Grey	50	20
1999903101	Fork	18,2 cm	Grey	50	20
1999903102	Spoon	18,5 cm	Grey	50	20

* The calculation methods and modeling are based on guidelines of ISO standards 14040/44 and on the GaBi modelling principles. The impact categories are based on EF 3.0 methods from the Product Environmental Footprint Guide of the European Commission. Basis of comparison: Single-use PS fork, 3,8 g (end-of-life = incineration) vs. Reusable PP fork 7 g (end-of-life = recycling).
