

Declaration of compliance

Item number: Item name:	56604 Dustpan, Red
Business operator:	Vikan A/S
	Rævevej 1
	7800 Skive
	Denmark
	Tel.: +45 96 14 26 00
Materials:	Polypropylene 97 %, red masterbatch 2 % and foaming agent 1%
	Polypropylene:
	Monomers and additives used to manufacture this grade are listed in Commision Regulation (EU) No. 10/2011 on plastic materials and articles intended to come into contact with foodstuffs. Current amendments 321/2011, 1282/2011, 1183/2012 and 202/2014 are included.
	This polypropylene grade contains the following "dual use" additives: Glycerol monostearat, calcium stearat and talc.
	No monomers and additives with specific migration limit (SML) are used.
	Red masterbatch and foaming agent:
	Monomers and additives used to manufacture this grade are listed in Commision Regulation (EU) No. 10/2011 on plastic materials and articles intended to come into contact with foodstuffs. Current amendments 321/2011, 1282/2011, 1183/2012 and 202/2014 are included.
	Following monomers and additives with specific migration limit (SML) are used in the red masterbatch:
	Ref no. 13380/25600/94960, cas no. 77-99-6, 1,1,1-trimethylolpropan and ref. no 68320, cas no. 2082-79-3, octadecyl-3-(3,5-di-tert-butyl-4- hydroxyphenyl) propionat. Calculations have proven that the product meets the requirement regarding the SML.
	Calculations have proven that the product meets the requirement regarding the SML.
	Following dual use additives are used: Carbonic acids (salts), Silicon dioxide and Stearic acid.
	Regarding the foaming agent following additives with specific migration limit (SML) are used: Vinyl acetat, Cas no. 108-05-4 with SML 12.00 mg/kg and 2,6-Di-tert-Butyl-p-cresol (BHT), Cas no. 128-37-0 with SML 3.00 mg/kg.
	The product meets the requirement regarding SML for both materials either by product test (Vinyl acetate) or by calculation (BHT).
FDA:	All raw materials in this product are in compliance with FDA (Food and Drug Administration in the USA) CFR 21.
EU Commission:	In accordance with EU Commission Regulation no. 1935/2004 the product is intended for food contact. The product can be marked with the "glass & fork" symbol on the packaging or by labeling.
	The product is produced according to EU Commission Regulation no. 2023/2006 on good manufacturing practices for materials and articles intended to come into contact with food (GMP).
	Overall migration tests are made on similar products. The product meets the requirements regarding overall migration to 50 % ethanol, 3 % acetic acid and olive oil.
Food contact:	No limitation
Usage temperature:	Min. temp.: -20 °C Max. temp.: 80 °C
General:	It is recommended that equipment is cleaned, disinfected and sterilised, as appropriate to it's intended use, before use.
	It is also important to clean, disinfect and sterilise equipment after use, using the appropriate decontamination chamicale, concentrations, times and temperatures.
	decontamination chemicals, concentrations, times and temperatures. Appropriate equipment decontamination will minimise risk of microbial growth and cross contamination and maximise the efficiency and durability of the equipment.
	Max. Wash temp.: 121 °C
Date:	28th november 2014
