***EU-supplier-declaration for food packaging
and food contact articles made of Paper***

Hereby we, GSD Verpackungen Gerhard Schuerholz GmbH, state the following with respect to our products we supply to Antalis A/S, Bastrupgaardvej 8-10, DK-7500 Holstebro:

<i>B20671810</i>	<i>cross bottom bags, brown kraft paper 70 g/qm, 22,5x32,5 cm, unprinted</i>
<i>B20675710</i>	<i>cross bottom bags, brown kraft paper 70 g/qm, 22,5x29,5 cm, unprinted</i>
<i>B21671710</i>	<i>cross bottom bags, brown kraft paper 70 g/qm, 19,1x26 cm, unprinted</i>
<i>BX60692262591</i>	<i>cross bottom bags, brown kraft paper 90 g/qm, 28x45 cm, unprinted</i>
<i>BX60692462591</i>	<i>cross bottom bags, brown kraft paper 90 g/qm, 32x47 cm, unprinted</i>
<i>BX60692662591</i>	<i>cross bottom bags, brown kraft paper 90 g/qm, 36x59 cm, unprinted</i>

This certification relates to food packaging and food contact articles made of paper and paper composites without a printed packaging surface (packaging exterior) without printing of the packaging rear (no interior printing of the packaging), whereby there is no absolute or functional barrier between the packaging and the filled product, i.e. there is a direct contact (also through the gas phase) between the food contact article and the filled product.

We hereby confirm that the above-mentioned product(s) complies with the following key regulations governing food contact materials that are directly applicable in the European Union:

- European framework regulation (EC) 1935/2004 of 27 October 2004 on 'Materials and articles intended to come into contact with food',
- European regulation (EC) 2023/2006 of 22 December 2006 on 'Good manufacturing practice for materials and articles intended to come into contact with food' and
- European directive 94/62/EC and its amendments

We confirm that we have implemented a suitable and appropriate quality assurance and control system for the production of food packaging according to the principles of good manufacturing practice in accordance with Articles 5 and 6 of Regulation (EC) 2023/2006 and we continually undertake the associated documentation.

Concerning the individually used materials for the manufacture of food packaging and food contact materials:

1. Paper

For the supplied packaging exclusively paper is used for which a supplier certificate under Recommendation XXXVI. of the Federal Institute for Risk assessment (BfR) on paper, cardboard and board for contact with food is available. BfR recommendation XXXVI. contains a positive list of usable chemicals and their maximum concentrations. According to the prevailing opinion this guarantees that harmlessness to health under § 30 Food and feed legal code (LFGB) is fulfilled. This is simultaneously the basic requirement for fulfilling the required sensory harmlessness of the paper packaging in § 31 LFGB.

Based on information provided by our raw material suppliers, we can confirm that the delivered item(s) do not contain any PFAS (per- and polyfluorinated alkyl substances) as per the formulation, and that the total concentration of heavy metals (lead, cadmium, mercury, hexavalent chromium) does not exceed the legally prescribed limit of 100 mg/kg. This ensures compliance with the relevant substance restrictions in (EU) PPWR 2025/40.

Our products are properly packaged and comply with the legal requirements for traceability and batch identification in accordance with (EU) Regulation 2025/40.

Storage under extreme conditions may cause damage to the material and affect its performance

We therefore recommend storage in closed, dry and clean rooms, maintaining a storage temperature of 18° to 22°C and a relative humidity of 50% to 60%.

The mentioned products, when used correctly, are intended for dry, moist and fatty foodstuffs.

Provided they continue to be used in a correct and orderly fashion, our products fulfil all valid requirements for the type of usage specified in the above. The specific suitability of the packaging material for the designated filling material can only be judged by the competent producer of such filling material, however. This declaration is valid for 2 years.

With kind regards

i.A. Christina Teschner
