---

Remark: Replaces all former editions.

Footnote:

- 1) Target values in accordance with the current DIN 55 468-1 standard, for E-flute these are recommended values only. The technical properties of our corrugated board products can only be guaranteed 6 months after delivery if correct storage is assured. Manufacturing tolerances to VDW Inspection Catalogue.
- 2) All papers comply with the current statutory provisions of the German Federal Institute for Risk Assessment (BfR) and with Recommendation XXXVI of its Plastics Committee. The basis weight tolerances are ± 4 %, a customary value worldwide. Due to scheduling or production engineering reasons, the application of similar or better papers is possible.
- 3) The water-based flexographic printing inks comply to the EuPIA exclusion list for printing inks.
