

Type	16634 101 421 16634 101 401
Designation	Outdoor Motion Sensor Light
Battery required	3 x AAA
LED	3pcs Osram SMT2835 2700K warm white LED
Luminous intensity	High: 40lm (12cd) Low: 8lm (2cd)
Run Time	High: 10h Low: 60h
Range	7 m (calculated distance at maximum luminous intensity with an illuminance of 0.25 lux)
Material	ABS PET POM Rubber (All contact parts made of bronze or nickel plated steel)
Weight.....	60.2 g
Dimensions.....	
Length	96.2 mm
Width	62.4 mm
Height	24.2 mm (Max 26.8mm with sensor)

Features (Technical).....

Low power warm white LED

Slide switch (On-Off-Auto, High-Low)

Auto-function:

- Photocell and motion sensor combine to activate light If ambient light drops below about 15 lux and motion is detected.

- Light turns off if no motion detected after 30 secs. If motion is detected within the 30 secs, the timer will be reset, extending the "On" time by an additional 30 secs.

- Light is not activated by motion sensor if ambient light levels rise above a threshold lux value set in the photocell.

PIR Motion sensor

Distance of activation: 0-3m

Angle of activation: 120°

Hook hole design & 3M adhesive tape

Magnetic design: "Stick" it to steel surfaces for hands-free use

Eye risk group exempt

1m drop test

IP44 dust & water resistant

10,000 Switch cycle life
