SHELF LIFE AND CONDITIONS

- Recommended application temperature: min. + 10°C
- Product application temperature: - 30 to + 80°C
- Durability: 2 years*
- Shelf life at 23°C/50% moisture: 2 years in original boxes

*The estimated durability refers to a vertical exposure under middle European climates. The durability of the product depends on the substrate's preparation, the atmospheric conditions and the environmental influence. Exposure to extreme conditions (tropical climate, high humidity, high UV-light exposure or polluted areas) can decrease the durability in a dramatically way.
